Subject: **Response to queries**

Activity: **Independent Verification Agents (IVA) PK-SED-466845-NC-RFB**

The following queries have been received for the above-mentioned activity:

- 1. What is the installation timeline of the Contractor for the whole project?**
Project completion timeline is 31st July 2025.
- 2. How many Solar Systems so far been installed by the Contractor, as the verification has to be done by the Consultant after 10 days of installation of SHS?**
As of now quantities are being handed over to the LMDs (contractors) and installation is not yet started.
- 3. What will be the evaluation criteria, along with specific marking / scoring, for the selection of the Consultant as the same is missing in the RFB.**
This is a single stage single envelope bidding process for non-consultancy services with a non-rated criteria, there will be no marking/ scoring but rather the only evaluation shall be based on the Qualification criteria mentioned in Section III - Evaluation and Qualification Criteria of the bidding documents
- 4. The Clause 20 of ITB, says that either a Bid-Securing Declaration or a Bid Security may be furnished but in the Bid-Securing Declaration form provided in Section IV, it is clearly mentioned "Not Applicable." This discrepancy needs to be clarified.**
As stated in Bid Data Sheet (BDS) ITB 20.1 only bid security shall be required. A bid securing declaration will not be acceptable.
- 5. Whether the detailed CVs of key personnel is required to be furnished in the Proposal or not, as RFB is silent on this.**
As stated in Section III - Evaluation and Qualification Criteria, Subsection 2, Sub-subsection e, The Bidder must demonstrate that they have assembled a core team that meets or exceeds the qualification and experience requirements outlined in Section VII, Subsection 5. This will only be possible if the bidder provides detailed CVs of the required positions.
